Dangerous Counterfeit.
A well executed counterfeit five dollar bill on the Lime Rock Bank, Providence, has made its appearance. It is a photograph, and so skilful that one of the Newark Banks was victimized. As there is considerable money in our community upon that bank, unless our citizens are watchful, this counterfeit can easily be foisted upon them.

Rich!
Miss Patil's concert took place in the concert room of the Ocean House last evening, tickets only \$2.50.

We cut the above from the Greenwich *Pendulum*, dated Saturday last. Singular, is it not, that brother Sherman should have this important news in advance of the reality. But the *Pendulum* always was smart.

One Day More!
By reference to our advertising columns it will be seen that the great Fair at Aquidneck Hall is to continue to-day. To-night the drawings are to take place! Won't there be a crowd?

An Insurrectionary Conspiracy in Georgia.

We learn that last week, in the upper part of this county, three negroes, belonging respectively to Dr. Cheney, Mr. Sledge, and another gentleman whose name we do not know, were overheard concocting a plan to rise and destroy the whites in that settlement. One of them was afterwards whipped by his master and confessed the truth, and on Tuesday the neighbors met and brought the negroes before them, and they corroborated the statements of the other. Mr. Sledge's boy, whose name is Green, and is a notoriously bad character, divulged the whole plot, which seems to have been about this: they had determined to instigate an insurrection between now and Christmas, and had approached several negroes on the subject, some of whom consented to join them and others refused. Their first point of attack was to have been on a meeting soon to be held at a Baptist church, on Amuchee Creek. The people were on the eve of hanging the boy Green, who seems to have been the ringleader, but they let him off upon condition that he should be sent out of the State. There is no evidence that white men are implicated; though such is doubtless the case, as there are several suspicious individuals prowling about in the county.—*Rome (Ga.) Courier*.

A most extraordinary case is now trying before one of the French Courts. A certain Mr. C. died, leaving an express order to his heirs that he should be buried in church, and a handsome sum paid to the priests on condition that "nobody should laugh while the service was going on." The in-digent defunct had observed that undertakers and priests permit themselves very often to take hilarious liberties with death, and he was determined that he should be buried with gravity appropriate to the grave. Of course the old request got passed abroad; all the village came to the funeral; and everybody kept an eye on everybody else to see that nobody should so much as wink, the natural result followed. A fat priest went to the coffin was the first to break down; the choir boys, in the frailty of their youth, followed the fat priest; the minor canon trying to stop the choir boys, or at least to make them laugh out of the "wrong side of their mouths" caught the contagion, and began to shake their sides; the deacons went off next full of guffaw; and finally, the curé himself was conquered and choked in his handkerchief. In short, a merrier interment never was witnessed. It was the joke of the season. But the heirs, not liking the sport, have refused to pay the clergy for their rollicking services, and the matter is now in Court, where it will doubtless cease to be a laughing matter to anybody but the lawyers.

How and why the Benicia Boy was requested to "step out" of the Ocean House, at Newport, is thus told by a correspondent of the Providence Press:—John C. Leon, alias the Benicia Boy, and his trainer, did enter their names among the aristocracy, the hobs and the nabobs, on the register of the Ocean House, on Sunday, the 29th of July, and for some cause "stepped out" before the going down of the sun the same day; and it is equally true that their names did not appear in the published list of arrivals at that house, at the earnest request of the proprietors thereof.

That morning, when it became known that Benicia had arrived and was domiciled at the Ocean House, the grounds in front of the House, and balcony swarmed with unwashed Milesians, to the number of two or three hundred, with soiled linen, and smoking strongly scented pipes, to pay their respects to the mac of their own "kith and kin" who had performed deeds of valor in the prize. —such a scene of excitement, and inquiries were as to the whereabouts and whatabouts of the other "rebouts" and whatabouts of the hotels. The stampede was, however, and the Benicia Boy went forth to seek other and humbler quarters, perhaps wondering why he, whose fame had reached from pole to pole, should be denied entrance into a house open to all men with polished exterior and the where-

with to settle their hotel bill.

Canadian Lesson for the Prince.
The liberal papers of Canada, while entirely respectful to the Prince, take occasion to remind him of certain ideas of their own. The *Hamilton Times*, speaking of his intended visit to the United States, remarks:

"A valuable lesson will the young Prince learn from observing the prosperity of that people whom his ancestors drove to rebellion. He will see how little a free and energetic people really depend upon princes — how wise it is to dispense with them when they misuse the prerogatives which are entrusted to them for the people's benefit."

The Hon. David Buell, a distinguished and veteran member of the Bar of Rensselaer county, N. Y., died at Troy on Thursday evening, aged seventy-six years.

MR. SEWARD IN BOSTON.—In his speech at Boston, Mr. Seward gave to John Quincy Adams the credit of being his teacher in Republicanism, and paid an enthusiastic tribute to the memory of the Massachusetts statesman.

The tolls on the New York canals for the first week of August amount to \$83,620. This amount is greater than any corresponding week of August since 1847. The aggregate receipts for 1860, to August 8, are \$1,248,288, an increase over 1859 of \$600,825.

The Louisville *Journal* of Tuesday says: We learned yesterday from a high source, likely to be correctly informed, that John C. Breckinridge actually contemplates taking the stump in Kentucky during the present canvass as a candidate for the Presidency.

The Richmond *Enquirer* of Tuesday announced that Mr. Wm. C. Ritchie and Mr. Wm. W. Dunnivant, have disposed of their interest in that journal, which will thereafter be conducted by Messrs. Nat. Tyler and O. Jenning Wise, as editors and proprietors. This change involves no variation in the political course of the *Enquirer*.

Albert G. Stevens, watchman of the Girard Bank, Philadelphia, died on Thursday morning, from the effects of a blow received on Saturday night, when he was assaulted by three persons, who searched him, supposing they would find the keys of the bank.

The yield of wheat is so large in some localities of Maine that owners of threshing machines are offering to thresh out the product of some fields for the excess over thirty bushels per acre. The usual rate is one-tenth. They are calculating on a yield of over thirty-three bushels per acre.

Another addition to the list of horrids is the story that a colored domestic at Brandywine Hundred, Del., had been demented in making a little child swallow pins, which is pronounced a fabrication by the gentleman in whose family the outrage was said to have occurred.

The census of Newark, N. J., has been completed. The total population is 72,065, which shows an increase of 90 per cent during the past ten years. In 1850 Newark contained only 10,950 inhabitants; in 1840, 17,290; and in 1850, about 38,000. Such a rate of growth is exceeded by few Western cities.

New Orleans papers bring details of the destructive fire in that city on Friday night last. One entire block, consisting chiefly of furniture warerooms and picture stores, was destroyed, with many adjacent buildings. The loss is estimated at \$500,000, pretty well covered by insurance. Several persons were injured, but none severely.

During a severe thunder storm in Philadelphia, Monday afternoon a workman was rendered insensible by lightning which struck near him. A companion named Hewes started for a wagon to remove the insensible man home, when a second flash came and killed Hewes instantly. The other man subsequently recovered.

The bill was made out, and old Steve settled it with a check for \$20,000, which he accompanied with this little moral to the story: "There, take that and invest it in the best possible manner, and if you are unfortunate, and lose it, you have a good living." We should like to see all the old solid fellows trying that experiment. It might spoil a barrel or two, but it wouldn't spoil the boys.

Mr. John B. Gough, who has been laboring in the cause of temperance for three years in England and Scotland, was to have left Liverpool for this country, on the 11th inst. A great farewell demonstration was advertised to take place in Exeter Hall, at which George Cruikshank, Esq., was to preside. Mr. Gough will be warmly welcomed back by his numerous friends in this country, and especially in Massachusetts. He will arrive here early next week.

Gov. Stevens, Chairman of the Breckinridge and Lane National Executive Committee, has received a letter from Mr. Breckinridge of such a character as warms him in giving an emphatic contradiction to all rumors of his desire to be relieved from his position as a candidate for the Presidency. The committees are sending out an address to the Democracy and people of the United States, mainly in reply to that of the Douglas Executive Committee.

On Monday last, while workmen were making excavations near the old fort at Toronto, U. C., they discovered the remains of fifteen bodies of British and American soldiers, who fell in the war of 1812. Several buttons, bayonets and epaulettes were also found. One button has the initials of the Pennsylvania Rangers on it; another is marked "U. S.", and another "8th British Grenadiers." A few American coins were also found. From the position of the bodies it is evident that they were buried in a trench near where they fell. Gen. Pike of Britton and Americans and a number of them were killed near this spot in 1812 by the explosion of a powder magazine.

The Boston *Traveller* of the 13th inst., says that Mr. Thomas Dacombe, residing in Roxbury, died Sunday noon of hydrocephalus. He kept a number of dogs, and about a week ago two of them, a female and one of her puppies, were playing rather roughly together, and he attempted to separate them. The mother of the puppy bit his wrist slightly, but he took no notice of it until Friday night last, when he was wakened with a burning thirst, and endeavored to drink some water, when he was seized with a violent spasm. He spoke to his wife in regard to the dog biting him, and said he was sure he had been poisoned in some way, and thought he had the hydrocephalus. He continued to grow worse, and barked like a dog, turned summersaults in his bed with a strength which two men were unable to restrain, and after much suffering, died on Sunday.

On the 6th of July last, Frederick D., only son of Samuel D. Clark, in Washington, Mass., was slightly bitten by a pet dog. It was not thought of much consequence; however, at the time, although the dog was shut up, as he manifested a disposition to

bite all who came in his way, and died in two or three days after the occurrence, having previously bitten a man upon the hand. Last Monday the child began to show symptoms of hydrocephalus, and grew rapidly worse until Tuesday at 12 1/2 o'clock, when he expired, after great suffering. His age was 2 years 8 months and 20 days. The man who was bitten—no person mentioned any well effects; and the sore upon his hand occasioned by the bite had healed over.

After reading cases like the above, of which there are frequent instances, one is led to think that it were better that the race of dogs be entirely exterminated than they should be suffered to live and subject the human family to such risks, as experience has shown that all dogs are liable to the disease, and none are secure from the bites.

THE PRINCE OF WALES AT SARATOGA.—The British Minister has perfected arrangements for the accommodation of the Prince of Wales (Barouf Renfew) at Saratoga. He has engaged the Clarendon Hotel at that place for the 15th of September.

AT NIGHT.
Dying! You do but jest!
You smile in the dark, I know!
Surely I should know best
How the quick pulses go.
Lay your hand on my cheek;
Feet, though you see not, the red,
Why, in another week
I shall have left my bed!

It was being so long alone—
So sick of the world's vain strife,
Uncared for, and unknown;
That snapped the strings of life!
You have given a word of love;
Nay, softer than sajous braw;
Is not our God abov'?

He will not summon me now.
The summer is coming fast;
I can scent the rich perfume
Of the roses by the door.
And the delicate apple bloom.
Where shall our year be spent?
I long for the hills of Spain—
We will go to Rome, for Lear,
Then back to our home again.

Oh! what is this sudden pang?
Is it growing darker, Will?
Heavily goes my heart—
It is almost standing still!
Raise me—I cannot breathe—
Pray for me, love, sir said.
Father, into Thy hands!
And my young wife was dead.
Once a Week.

THE NEW AMERICAN WATCH.
IN ORDER TO MEET THE REQUIREMENTS OF GENTLEMEN who prefer a thinner watch than those usually made by us, we have lately issued a new style of watch on the three-quarter plate model; especially designed for that purpose.

In introducing this new series, it has also been our object to produce a watch in every way equal to the best and largest priced products of the most reputable of English and American manufacturers; and no labor or expense has been spared to this end.

In all respects of size and durable material,

of exterior and internal finish, secure econ-

omy and adjustment, of mathematically

just proportions, and of practical results our

new three-quarter plate watch challenges

competition with anything else.

NOE'S
ITALIAN
Magnetic Air Electric,
HAIR LIFE.

LADIES and Gentlemen, if you desire to Dye your Hair a beautiful Black or Brown, of natural color, you can attain this result by using this Chemical Medical Preparation. It is put up with great skill and care, and has no similarity to any other article now before the public. You are not troubled with wasting the head or whiskers. The application is accomplished in a moment's time, and warranted not to injure the hair or skin. It is warranted to dye Gray or Red Hair; to prevent the Hair falling off; to cure Dandruff and Scurf; to soften and gloss the Hair and Whiskers; it never fails to dye after the third application. In every case where it fails the money will be refunded without equivocation.

A few Medical and Vegetable Ingredients Compound the Hair Resuscitative Hair Life. The Inventor has had years' experience in it.

The Hair Resuscitative Hair Life is the best and cheapest article of the kind in the market; and the only one without blemish.

It was applied during the past five months, partly for ladies, and in all for about 3000 persons, and has never failed in a single case.

If you wish more testimony, inquire of the public.

The Hair Resuscitative Hair Life is for sale by H. H. Burroughs, 61 North Main st.; J. Balch & Son, 42 South Main st., Providence; R. J. Taylor 104 Thames St., Newport R. I., and by Druggists everywhere, at Wholesale or Retail. Retail price 75c per bottle. Each bottle is labelled with full directions for use, and for mark, the Proprietor's Photograph.

A liberal discount made to the trade. Applied for sale, Wholesale and Retail, at the Proprietor's store, L. J. NOE, No. 9 Orange st., opposite Middle st., Providence, R. I.

DIRECTIONS FOR USE.—Pour a small quantity of the liquid into a saucer, and with a stiff brush saturate the Hair well with the Hair Resuscitative, dividing it with a clean comb, so that it may get well down to the roots; after this has been thoroughly done, take a cloth wet with any kind of clean water, and wipe the skin all around the edges of the hair, and expose the head and whiskers to the air as much as possible. You can repeat the application after twenty-four hours, and the third application is seldom required. You can use Oil or Pomade on your Hair or Whiskers, if you wish, as they will not injure the Hair Life.

WILL CURE THE DYSPEPSIA,
WILL CURE THE HEAT, BURN,
WILL CURE CRAMPS IN THE STOMACH &c.

AROMATIC DIGESTIVE CORDIAL.—This excellent and agreeable preparation is one of the best means of improving the appetite, promoting digestion, and giving strength and tone to the stomach, which has yet been offered to the public.

It is an old German receipt, and has been in use for many years in the families of the manufacturers, where it has proved an invaluable remedy for DYSPEPSIA, HEART-BURN, FLATULENCE AND CRAMPS IN THE STOMACH, arising from cold or indigestion. All persons having the least tendency to indigestion should never be without it, as small wine-glass full, taken after meals, will exclude the possibility of contracting the dy-pepsia.

It is composed of fifteen ingredients. Bitter and Aromatics, and only needs to be tested to be approved and appreciated.

To persons who feel any disposition to Cramps or cramps after bathing, it is of the highest benefit, as it is a mild but prompt stimulant, and produces a healthy and generous glow throughout the system, immediately, after taking it.

It is an agreeable beverage, and may be used with safety, pleasure and advantage by invalids, and by those in health.

For Sale everywhere, put up in quart bottles. Price one dollar.

SOYER'S SULTANA SAUCE
FOR HOT OR COLD DISHES OF ALL KINDS.

THIS most delicious and appetizing sauce invented by the renowned SOYER for the London, "Relais Club" is since his decease, manufactured by the well-known house of GROSSE & BLACK WELL, London, from the original recipe. It is the favorite Sauce in Eng. and, and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid to digestion.

OPINIONS OF THE LONDON PRESS.—"We recommend our correspondent to try Mons. SOYER's new Sauce, entitled the 'Bullock's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it afford considerable aid in cases of slow and weak digestion."—"The Lancet."

UNION HALL,
SARATOGA SPRINGS, NEW YORK.

This well known Hotel, pleasantly located on the west side of Broadway, and opposite the celebrated CONGRESS SPRINGS,

OPENS FOR VISITORS,

June 15th, for the Season.

By the addition, just finished, of a handsome brick building, two hundred and forty-one feet long, by fifty-five feet wide, and five stories high, it is much the largest Hotel in the place, having a front of over ONE THOUSAND FEET, and CAN ACCOMMODATE OVER ONE THOUSAND GUESTS.

The DINING HALL, KITCHEN, AND LAUNDRY are unsurpassed in this country, in extent and completeness, and probably in the world.

The Court, enclosed by the main building and family cottages, forms a lawn of several acres in extent, intersected with shaded walks. A fine band of music belonging to the house will be in attendance during the season.

Carriage-houses are also attached to the premises, affording every facility for excursions for the accommodation of guests.

The management of Union Hall, we trust, will meet with the approval of all who may honor us with their patronage.

SI. NICHOLAS HOTEL,
Broadway, New York.

WHEN COMPLETED, six years ago, the citizens of New York universally pronounced the most magnificent, convenient, and thoroughly organized establishment of the kind on this continent. What it was then it remains to-day without a rival in size in sumptuousness, and in the general plan of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the traveling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad, derived from its magnitude, its superb appointments, and home-like comforts and luxuries, has been enhanced every year by the unweary exertions of the proprietors.
